DETAILED ACTION

Priority

- 5 1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-7 are allowed.
- 10 3. The following is the Examiner's statement of reasons for allowance: the claims are directed a system and the method for prevent tampering of an odometer in a vehicle. The system is comprised of a cluster having a first memory, a tampering prevention control unit having a second memory, and an engine control unit having a third memory. The first, second and third memory contain vehicle serial number data and accumulated running distance data. The
- 15 tampering prevention control unit compares the vehicle serial numbers in respective memories against each other and issues an error message if they are not matched. The tampering prevention control unit further compares accumulated running distances in respective memories against each other and issues an error message if they are not matched. Such system and the methods are not disclosed in the cited references, and would, in the Examiner's opinion, not be
- 20 an obvious modification contemplated by one ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
